SPECIFICATIONS

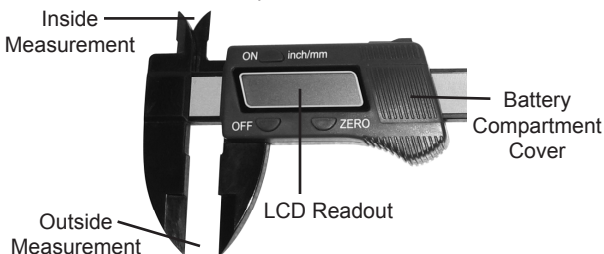

Scale Range: 0-6"/0-150mm	Max Throat: 1-9/16"
Accuracy: +/- .01" (+/- .2mm)	Battery: SR44 1.5V (included)

IMPORTANT SAFETY INFORMATION

1. Wear ANSI-approved safety goggles during use.
2. This product is not a toy. Keep away from children.
3. Use as intended only.
4. Inspect before use; do not use if parts are loose or damaged.
5. Position battery in proper polarity.

OPERATING INSTRUCTIONS

1. Push the ON/inch/mm Button to activate. To change setting from inches to millimeters, press ON/inch/mm again. The mode changes each time button is pushed.
2. Hold the blue housing and slide down ruler. The LCD readout will show the changing distance between the lower, larger jaws. Press ZERO to set readout to 0.
3. To measure inside of object, press ZERO. Set the top prongs inside object being measured. Spread prongs apart until they touch surface of object.
4. Press OFF to turn off Caliper when finished.

5. To replace battery, slide Battery Compartment Cover off housing.
6. Replace old battery with one new SR44 1.5V battery.
7. Follow indicated polarity and slide Battery Cover back into place.
