December 4, 2019

Subject: Permission to use FAA STC SA04427CH and FAA ADS-B Policy Memorandum as basis for installation of uAvionix tailBeacon ADS-B Out Transmitter on rotorcraft

Consistent with FAA Order 8110.4C and AC 21-40A, uAvionix Corporation grants permission to uAvionix dealers, installers, and owners of tailBeacon ADS-B Out Transmitter units to utilize FAA Supplemental Type Certificate (STC) SA04427CH and associated data, in combination with the FAA ADS-B Policy Memorandum, *Installation Approval for ADS-B OUT Systems* ⁽¹⁾, dated March 2, 2016, for the sole and express purpose of installation and approval of the uAvionix tailBeacon ADS-B Out Transmitter on rotorcraft. FAA STC SA04427CH is granted for installation of tailBeacon on Part 23 aircraft, but consistent with the FAA ADS-B Policy Memorandum, installation on different classes of aircraft, including rotorcraft, is allowed. Following the aircraft modification, a copy of this permission statement, the FAA ADS-B Policy Memorandum, and a completed FAA Form 337 should be placed in the aircraft's permanent records.

A handwritten signature in black ink that reads "Ryan C. Braun". The signature is written in a cursive style and is positioned above a horizontal line.

Ryan C. Braun
Chief Operating Officer
uAvionix Corporation
