

IFR SIMULATORS

HONEYCOMB ALPHA FLIGHT CONTROL YOKE AND SWITCH PANEL

The Honeycomb Alpha Flight Control is the most advanced flight simulation system available to simmers, flight students, and pilots for setup at home and features a complete backlit switch panel and ignition switch. It was designed and developed in California by pilots and aerospace engineers to ensure the most realistic flight experience.

HONEYCOMB BRAVO THROTTLE QUADRANT

The Bravo Throttle Quadrant is an all-in-one cockpit system featuring a fully configurable throttle setup. Six general aviation and six commercial levers are included and can be arranged from single-engine general aviation all the way up to four-engine commercial aircraft. The commercial levers include flaps, spoilers, and functional thrust reversers while the general aviation levers include power, prop, and mixture and can engage thrust reverse for turbo props as well. The throttle also features multiple cockpit components including an

autopilot panel with backlit buttons, annunciator panel with 14 warning lights, Gear Lever with landing gear indicator lights, general aviation flap lever and a trim wheel. The throttle also comes with Honeycomb's dual mounting system which includes two heavy duty steel clamps and a large 3M® Micro-Suction Pad that can be used as a clamp-free solution. The Honeycomb Bravo Throttle Quadrant was designed to ensure the most versatile flight simulation experience possible.

HONEYCOMB ALPHA YOKE / BRAVO THROTTLE DUST COVER

The Dust Cover by Honeycomb Aeronautical is designed and made for both the Alpha Flight Controls and Bravo Throttle Quadrant. The cover itself protects from any unwanted dust or potential damage while preserving the condition of the Yoke or Throttle. Easily apply and remove the cover when mounted on the desk or use as a storage solution when not in use.

CH ECLIPSE YOKER

Fully programmable fingertip paddles, ideal for flight and racing sims. Programmable trim / scroll wheels with center push function. Two backlit push buttons and a third traditional push button. Two 8-way hat with rocker switch and trigger on both sides of handle. Configurable POV hat for either left or right hand use. Colored handles for

throttle / prop / fuel mixture. Three color LED selector dial giving you a total of 240 programmable functions with CH Control Manager software. Six analog 10 bit axes for aileron, elevator, throttle, propeller pitch, fuel and rudder. New and improved industrial grade material / components; indestructible robust plastic, free floating shaft and clamp extenders for the thinnest of desksP/N 13-06127

CH THROTTLE QUADRANT USB

TWIN ENGINE. Fully programmable and featuring six physical dent axis' and up to 350 buttons. Throttle Quadrant USB takes you from the computer to the cockpit. **Features:** 6 Axis 12 Buttons (24 Button functions w/Control Manager Software (included), 6 Physical Detents, Fully Programmable with CH Control manager, Compatible with Windows 98, Windows ME, Windows 2000 & Windows XP. Compatible with all Windows based GamesP/N 13-03377

TURTLE BEACH VELOCITYONE FLIGHT SIMULATOR UNIVERSAL CONTROL YOKE AND THROTTLE SYSTEM

Developed by world-class aeronautical engineers and pilots the Turtle Beach VelocityOne Flight Simulator Universal Control System offers the most immersive, authentic flying experience on the market. A true-to-life 180° yoke handle with built-in rudder controls provide

precise, long-lasting control of any aircraft. The modular throttle quadrant with integrated trim wheel and included swappable throttle tops offers at-home aviators enhanced customization for both light and heavy aircrafts. The Flight Management Display and an authentic status indicator panel offers real-time alerts and critical flight details. Setup is easy with a simple USB connection for Xbox Series X|S & Xbox One or Windows PCs.

Software Compatibility: • Microsoft Flight Simulator, Sim software with USB controller supportP/N 14-03437

FLIGHT SOUND X - AVIATION HEADSET / USB ADAPTER

Just plug and play...and you're ready to go! Flight Sound X is designed to be as easy to use as possible - no additional software, no batteries, no external power sources - just one standard USB cable. Just 'plug and play!' When

users have finished with the device, simply unplug it, and the computer will revert to its original audio settings. The Flight Sound X adapter is a great accessory for any pilot!

Features: • USB 1.1 and 2.0 compatible • Plug and Play with Windows 7/ Vista/XP and Mac OS X • Uses standard General Aviation headset connectors (PJ-068 and PJ-055B) • Supports headset impedances of 100 to 600 Ohms • Supports Mono and Stereo Headsets • Compatible with standard microphone types (electret, dynamic and powered dynamic) Pilots Headset USB AdapterP/N 13-09050
