

PUSH-TO-TALK - LEATHER HELMETS

PUSH-TO-TALK SWITCHES

ECONOMY PUSH-TO-TALK SWITCH

Similar to PT-300, this top quality switch is offered at considerable savings. Features gold contacts for durability.

Fully guaranteedP/N 11-12100

PTT-400 PORTABLE PUSH-TO-TALK SWITCH

Designed so that the pilot may push downward to invoke the radio transmit function, instead of the traditional "sideways activation" of typical strap-on PTTs.

Secures to the top of the vertical handle of the control yoke with provided velcro tape. Housed at the top of a thin, 1/2" dia. cylindrical enclosure, the soft-touch red push button is rated for 50,000 failure-free operations. 5ft. coiled cable terminates with standard plug & jack. Fast and easy plug-in installation, in virtually any aircraft....P/N 11-02072

PILOT USA PUSH TO TALK FOR YAESU HANDHELD RADIOS

Allows the user to transmit to ATC when the red button is engaged. Can be used with or without an intercom.

P/N 11-19322

NAV-DATA PUSH-TO-TALK SWITCH

Push-to-talk switch with heavy duty construction and dual internal contacts. Included strap to attaches to most yoke controlsP/N 13-06089

PUSH TO TALK

Push to Talk Switch Fixed Wing Airplane Aircraft - INLINE with headset.

Allows the user to transmit to ATC when the button is engaged. Can be used with or without an intercom.

The Got Your Six Aviation Push-To-Talk button can be well positioned on the yoke or stick, and is extremely convenient with it's pass-through design plugging INLINE into the mic jack of your your headset (.206" standard Mic jack)P/N 11-19710
